

ScreenDr Screen Cleaning Kit

Quick Start Guide

POP

the vented cap from the bottle and remove the microfiber cloth.

SPRAY

the streak-free, alcohol-free, ammonia-free solution lightly onto the cloth. Hold bottle 5" from the cloth to avoid over spraying. **IMPORTANT:** Do not spray directly onto the screen.

WIPE

CLEAN delicate screens with the confidence that ScreenDr® is effective and safe. **IMPORTANT:** To avoid streaking, turn the screen off and allow it to cool before cleaning.

DRY to leave a brilliant, streak-free and static-free finish. **IMPORTANT:** Screen must be dried thoroughly to avoid streaks. For best results, flip the cloth over and use a dry section of the cloth.

STORDRY™

the cloth by draping it over the bottle, then snapping the vented cap back in place. Rest easy knowing your cloth will be safe and ready-to-go for next time!
